WILL the Yi Pay Yi support Hon. W. L. Little for county treasurer.

THE GAZETTE has a larger circulation than any two weekly papers published in the county.

DICKINSON county republicans last Saturday voted down a resolution endorsing Morrill. A similar resolution concerning Judge Martin met the same fate.

MARIA BARBERI, a young Italian woman is to be electrocuted in New York for the killing of the man who had ruined her. This country seems

to be going back to barbarism, or rather adopting a kind of its own.

SOME of the prominent citizens of this city are talking of buying up the stock in the street railway company, and starting a liver plant.

THE GAZETTE prints 1,344 papers every week and less than 50 goes to exchanges. This is several hundred more than the weekly News puts out.

LYON county republicans endorsed the state administration. This is the home of the greatest hypocrite and demagogue on earth, the Rev. Benard Kelley.

31 x 24 = 2,000. These figures don't gibe do they? Well that's just how much a lie the News force gives you when they say their weekly circulation is 2,000.

A GOLD bug populist is something that doesn't exist. Sometimes we hear of a populist being converted to McKinleyism, gold-bugism, but he don't stay with the pops. He joins the republicans, law and order league or gets drunk, neither of which are tenets of the people's party.

CAPT. W. E. BURNS, of the Cow creek brigade has plenty of nerve. He has accosted several populists to work for him. This is the man who two years ago headed a gang of insurgents whose object was to shoot down any man who dared protest against the unlawful acts of Sledgehammer Douglas.

JUST why any man of common sense should at this stage of the game leave any party and join the democratic party is beyond our comprehension. Even the future of the national prohibition party is brighter than that of the democratic party. There never was a party so badly demoralized as the party of Cleveland and Carlisle is today.

In the July Arena one of the fetures to attract attention is the symposium on "The Age of Consent," to which several well-known representatives of different states contribute. Among those who oppose any change in the present laws, regarding them as adequate and based upon physiological as well as sociological requirements are the Hon. C. H. Robinson of Iowa and the Hon. A. C. Tomkins of Kentucky.

UP TO DATE.

The support of the old ring is for the following candidates: For clerk, Humphrey, of Nickerson. For register, Jesse Brainard. For treasurer, Capt. Burns.

ANTE-ELECTION PROMISES.

Last summer one of the promises held up to suckers was that if Lewelling and Simpson were defeated, that in less than 30 days an electric car line would be in construction in this city. Well, dupes got out and howled for Morrill and redemption and they got both. Now they don't know what to do with 'em. As for the electric railway service, we will say that in less than two weeks after the election the Street Car Company cut the wages of the men. Last week they laid off every man but three and two-thirds of the cars. But then this is as near fulfilling the promises of the redeemers as the Morrill administration is capable of doing.

MORE "REDEEMING."

A patient confined in the Topeka Asylum, died last week and was sent to his former home at Hays City. The friends did not think the corpse looked natural and the coroner was called in. He empanelled a jury which returned the following verdict: "The said jurors upon their oaths do say that Gust Mauer came to his death while a patient of the insane asylum at Topeka, Kansas, by having his neck broken and we further find that Dr. Eastman, superintendent of the asylum misrepresented the cause of his death."

This Dr. Eastman was removed by Governor Lewelling and re-appointed by the present "business" administration. But why is the very pure State Journal so silent?

A BASIS FOR UNION.

On July 4th a National conference of reformers of all political parties met at Prohibition park in the city of New York. A platform was adopted and a recommendation that a similar conference be held at some central city between the 1st of October and March next. The platform as adopted is as follows:

- PROPOSED BASIS OF UNION. "As a basis of a union of reform forces. "1. Resolved: That we demand direct legislation, the initiative and the referendum in national, state and local matters; the imperative mandate and proportional representation. "2. That we demand that when any branch of legitimate business becomes a monopoly in the hand of a few against the interests of the many, that industry should be taken possession of, by just terms, by the municipality, the state or the nation, and administered by the people. "3. That we demand the election of president and vice-president and of U. S. senators by direct vote of the people, and also of a civil officers as far as possible. "4. That we demand equal suffrage without distinction of sex. "5. That as the land is the rightful heritage of the people, we demand that no tenure should hold without use and occupancy. "6. That we demand the prohibition of the liquor traffic for beverage purposes, and government control of the sale for medical, scientific and mechanical uses. "7. The all money—paper, gold and silver—should be issued by the national government only, and made legal tender for all payments, public or private, on future contracts, and in amount adequate to the demands of business. "8. That we demand the free and unlimited coinage of silver and gold at the ratio of 16 to 1."

There are longer but no better roads in this or any other country than the Chicago & Alton R. R. This line makes a permanent patron of every traveler who once gives it a trial. Its tracks are of the heaviest steel and as smooth as glass. Its road-bed is stone ballasted throughout. Its equipment is superb. It was the first line on which a Pullman sleeping car was ever run, the first line to adopt dining cars and the first line to run free reclining chair cars, and today its solid vestibuled trains, containing all of these modern luxuries, are running through on fast time to and from Union Depots in Kansas City, St. Louis and Chicago with astonishing regularity and with exceeding comfort to its ever increasing patrons. If you ever make a trip in any a trip in any direction between Kansas City and Chicago, or Kansas City and St. Louis or St. Louis and Chicago, and fail to patronize the Chicago & Alton, you may be sure that you have missed at least one opportunity for increasing your happiness in this life.

Atlantic Monthly. The Atlantic Monthly for July contains the first of Dr. John Fiske's promised historical papers. The subject treated in this issue is The Elizabethan Sea Kings. Such picturesque historical characters as Raleigh, Drake and others of their time become doubly attractive, when described by so charming a writer as Mr. Fiske.

Another series which promises delightful reading describes An Architect's Vacation. Mr. Robert S. Peabody, the well-known Boston architect, is the author, and the first paper treats of Rural England. Percival Lowell's papers on Mars are continued, the subject of the third being Canals. As these papers progress, they give more and more reason for the belief that Mars is inhabited. Special stress is laid in this paper on the artificial appearance of the canals on the planet.

Henry J. Fletcher, who is making a study of the railroad question, contributes an important article upon a National Transportation Department. Among other features will be a scholarly article by William Everett, called The Ship of State and the Stroke of Fate; The Childhood and Youth of a French Macoon; another delightful number of George Birkbeck Hill's Talks over Autographs; powerful installments of the two serials; a short story by Robert Beverly Hall, entitled A Philosopher with an Eye for Beauty; poems by Louise Chandler Moulton, Henry van Dyke, and Clinton Spillard; book reviews, and the usual departments.

The Arena. The July Arena is a mammoth publication containing one hundred and seventy-six pages in the body of the review. It presents a number of very thoughtful papers by representative thinkers dealing with live subjects and problems of special interest to men and women who think.

BIG PROFITS ON Small Investments.

Returning properly will make many rich, but nowhere can they make as much within a short time as by successful Speculation in Grain, Provisions and Stock.

10.00 FOR EACH DOLLAR INVESTED can be made by our

Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system. It is a well-known fact that there are thousands of men in all parts of the United States who by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 for \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit, that piles up enormously in a short time.

Eureka Chemical and Mfg Co., La. Croese, Wis. Dear Sirs—I have been a tobacco lover for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keweenaw" and "Bacon-Curo" and various other remedies, but without success, until I accidentally learned of your "Bacon-Curo." Three weeks ago today I without success, until I accidentally learned of your "Bacon-Curo." Three weeks ago today I commenced using your preparation, and today, consider myself completely cured. I am in perfect health and the terrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Bacon-Curo" simply wonderful, and can fully recommend it. Yours very truly, C. W. HONICK.
